PROFESSIONAL SUMMARY

Computer Science undergraduate (Data Science & AI) with hands-on experience across Generative AI, prompt engineering, and API integration through two applied AI internships. Skilled in Python, SQL, and data analytics (Pandas, NumPy, Scikit-learn, Power BI, Excel), with additional experience developing full-stack MERN applications and RESTful APIs. Quick to learn new tools and platforms, comfortable working cross-functionally, and eager to apply AI and automation to real-world business operations as a Graduate Trainee – AI, Automation & Technology.

TECHNICAL SKILLS

AI & Automation: Generative AI, Prompt Engineering, LLM Fundamentals, ChatGPT, Gemini, Claude, API Integration, AI-Powered Analytics
Productivity & Reporting: Microsoft Excel, Google Sheets, Power BI, Data Visualization, Reporting
Data Analytics: Python (Pandas, NumPy, Scikit-learn), SQL, EDA, Feature Engineering
Productivity Tools: Microsoft 365, Microsoft Copilot, Google Workspace, Google Sheets, Microsoft Excel
Programming & Web: JavaScript, React.js, Node.js, Express.js, REST APIs, JWT, RBAC
Databases & Tools: MongoDB, MySQL, Git, GitHub, Postman, VS Code
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

EXPERIENCE

Generative AI Virtual Intern June 2026 – Present
IBM SkillsBuild (via Edunet Foundation) Remote

- Completed a structured virtual internship covering Generative AI, Large Language Models (LLMs), Prompt Engineering, and responsible AI practices.
- Worked on hands-on AI applications using prompt engineering and API integrations, gaining practical exposure to Generative AI workflows.
- Collaborated on hands-on projects using an iterative development approach, strengthening problem-solving and AI application development skills.

Artificial Intelligence Intern July 2025 – Aug 2025
Codec Technologies India Remote

- Engineered data preprocessing and feature engineering pipelines in Python using Pandas and NumPy to prepare datasets for machine learning workflows.
- Developed, tested, and evaluated predictive models using Scikit-learn, improving model performance through iterative experimentation and debugging.
- Performed exploratory data analysis (EDA) and collaborated using Agile-style development practices to deliver data-driven solutions.

PROJECTS

DataInsight AI – AI-Powered Data Analytics Platform | *Python, Pandas, Scikit-learn, React.js, Node.js, Express.js* GitHub

- Built an end-to-end AI-powered data analytics platform supporting CSV, Excel, database, and API data ingestion with automated preprocessing, data quality analysis, EDA, and machine learning workflows.
- Developed a React–Node.js–Python/FastAPI architecture with AutoML, forecasting, AI-generated insights, and what-if analysis, following basic data protection practices for dataset and user data handling.

InventoryPro – Full-Stack Inventory Management System | *MongoDB, Express.js, React.js, Node.js, JWT* GitHub

- Developed a full-stack MERN inventory management system with JWT authentication and Role-Based Access Control (RBAC), applying authentication and access control practices for secure user management.
- Designed 60+ RESTful API endpoints across 10 route modules backed by 5 MongoDB collections, supporting CRUD operations, search, filtering, billing, and stock monitoring.

EDUCATION

Shri Ramswaroop Memorial University Lucknow, India
B.Tech in Computer Science and Engineering (Data Science & AI) – CGPA: 8.14/10 2023 – 2027 (Expected)
Silver Stone Public School Chandausi, India
Senior Secondary (Class XII – PCM) – 73.17% 2022 – 2023

CERTIFICATIONS

Exploratory Data Analysis – FutureSkills Prime / NASSCOM | **Data Analytics and Reporting** – IBM | **SQL for Data Analytics** – L&T EduTech

LEADERSHIP & EXTRACURRICULAR

- Technical Head, College Technical Club** – Led technical workshops and hackathons, communicating technical concepts and mentoring students in Python and web development fundamentals.
- College Event Coordinator** – Coordinated technical events, coding competitions, and tech fests, managing communication and coordination across student teams.
