

Shiva Sharma

Chandausi, Uttar Pradesh, India

+91 8273729965 | shivasharma9475@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

Results-driven Software Engineer with hands-on experience in full-stack development using the MERN stack (MongoDB, Express.js, React.js, Node.js) and Python. Proficient in designing and developing RESTful APIs, scalable web applications, and integrating machine learning models into production environments. Experienced in building interactive dashboards and data visualizations using Power BI and Excel to deliver actionable business insights. Skilled in SQL and database design.

Education

Shri Ramswaroop Memorial University, Lucknow <i>B.Tech in Computer Science and Engineering (Data Science & AI)</i>	2023 – Present CGPA: 8.09 / 10
Silver Stone Public School, Chandausi <i>Senior Secondary (Class XII – PCM)</i>	2022 – 2023 76.70%

Technical Skills

- Languages: Python, JavaScript (ES6+)
- Frontend: React.js, Responsive UI Design (HTML5, CSS3)
- Backend: Node.js, Express.js, RESTful APIs, MVC Architecture
- Databases: MongoDB, MySQL, PostgreSQL
- Data Science & ML: Pandas, NumPy, Scikit-learn
- Data Visualization: Power BI, Excel, Matplotlib, Seaborn
- Tools & Platforms: Git, GitHub, Postman, JWT, Clouinary

Projects

Fraud Prediction Web Application

GitHub

- Integrated supervised classification ML models (Logistic Regression, Random Forest) into a web application for real-time fraud detection.
- Implemented data preprocessing and validation pipelines before model inference to improve prediction accuracy.
- Designed clean backend logic and displayed real-time prediction results.

Energy Analytics Platform

GitHub

- Built regression-based ML models to predict CO2 emissions using global energy indicators from structured datasets.
- Applied feature selection, normalization, and cross-validation techniques to improve model performance (R2 score).

Experience

Artificial Intelligence Intern

Codec Technologies India

July 2025 – Aug 2025

Remote

- Worked on AI and data-driven projects, applying machine learning concepts and data analysis techniques.
- Developed and implemented models using Python and libraries such as Pandas and Scikit-learn.
- Performed data preprocessing, feature engineering, and model evaluation to improve prediction accuracy.
- Collaborated on assigned projects under mentorship, gaining hands-on experience in real-world problem solving.

Certifications

- Full Stack Web Development Bootcamp – L&T EduTech
- Data Analytics and Reporting – IBM
- SQL for Data Analytics – L&T EduTech

Leadership & Extracurricular

- Technical Head, College Technical Club – Led coding workshops, organized hackathons, and mentored 20+ junior students in Python and web development.
- College Event Coordinator – Planned and managed university-level technical events including coding competitions and tech fests.
- Class Representative – Coordinated academic communication between students and faculty; resolved issues affecting batch performance.
